

Freedom Awaits

Thinking about how easy it is to shift the blame to another when you refuse to discover that the power to change was within your hands ~ Peace and Blessings

Yo! My guy said he felt like he was stuck
I thought about saying it, but with my luck
I ain't freedom, brother, no matter where you look
The best I can tell you is for me what it took

One way or another, examine the choices you make
The chances you take, what's real, what's fake
All place you in the position you in
Help ain't coming unless you willing to begin

Step back, take a breath, see the picture clear
Ain't no magic words gon' make the chains disappear
Gotta move, gotta choose, find a reason to fight
Ain't no freedom in the dark if you ain't reaching for light

Determine what's valued more than the other
It may help in the decision to unstick the brother
But one way or another, you stuck, my brother
Freedom awaits your command to uncover

Ayo, it ain't easy, nah, ain't always fair
But staying stuck ain't the move if you really care
Life ain't waiting, time don't pause
If you want that freedom, gotta break them laws

The mental ones that hold you, keep you caged
The doubts that cloud up and fuel the rage
Discover the key that's already inside
Unlock your mind, let the past subside

One foot forward, step through the fear

Freedom ain't far, it's already near
No one else can set you free
That power belongs to you and me

See, truth ain't hidden, it's right in view
Gotta claim it, gotta push on through
Ain't no savior coming down from above
Freedom starts when you believe in love

*Freedom awaits, open your eyes
You hold the key, just reach for the skies
Let go the chains, don't hesitate
Step in your power—freedom awaits*
