

Life: Now Streaming

Sitting in a room where you live
TV commercials took all you had to give
Drama, adventure, comedy, suspense
Mystery, crime ID and docuseries so tense

Hello, if there is something on that you don't want to see
Get off your butt, grab the remote and turn off the TV
There are several options available based on a fee
So that you can record simultaneously with online dvd

You can skip pass the stuff they trying to
sell you
Or you can get up and get busy, there's
plenty to do
You caught up in bingeing and doing it in
one setting
Thinking, wondering if there is
something you forgetting

Are the commercials too many, at least
more than a few
No need to make excuses, you know
what to do
It ain't like its a shock and all of a
sudden,
All you got to do is hit the stop or the off button

Perhaps you really and truly can be - cause
Don't have the strength- just press pause
I now return you to your previously streamed episode
Or you can stand, stretch, release and unload.

Stay tuned...
